

# Open Water Course with eLearning

## Learn To Dive - Start Today!

Learning to scuba dive gives you the opportunity to experience the thrill and excitement of exploring the underwater world. Here in Kona, scuba divers slip into crystal clear waters, soar above pristine coral reefs, swim through lava rock arches, or visit green sea turtles resting on the reef. On the world famous Kona Manta Ray Night Dive, divers are thrilled by observing large majestic manta rays sommersaulting, gliding, and pivoting only a few feet away. Join those that seek adventure and learn to dive - starting today!

The PADI eLearning program allows you to start the PADI Open Water Diver course immediately with a user friendly on-line course that covers the knowledge development portion. Participating in this on-line component allows more flexibility when trying to fit scuba certification into a busy schedule and provides another option for those who prefer web based learning. In addition to the eLearning program, students also participate in five skill development sessions and four open water dives at Jack's Diving Locker in Kona, Hawaii. Register today and let the adventure begin!

# Open Water Course

## 4 Full Days

Scuba diving is the perfect way to add adventure in your life – especially diving in Hawaii! The Kona Coast of Hawaii is a world-class diving destination with healthy coral reefs, underwater lava formations, and colorful reef fish. Kona is famous for the Manta Ray Night Dive – something you can do after completing this course! The PADI Open Water Scuba Diver course is an entry-level certification course that includes academic sessions, shallow water skill dives, and four open water dives from the shore and boat. Upon successful completion of this course, students become PADI Open Water Divers and are allowed to rent or purchase scuba equipment as well as plan and conduct open water dives independently within the limits of their training. One of the best experiences for certified divers is to sign up for dive boat charters where they will explore the underwater world with a professional guide. Certified Open Water Divers are encouraged to continue their training with the PADI Advanced Open Water course or PADI specialty courses such as Digital Underwater Photography, Enriched Air Nitrox, and more. Sign up today, and let the adventure begin!
